Metallurgical Process Plant Operations, Process analyses and Associated Process Equipment. They have Practical Experience in Supplying various Goods and Services that guarantee Customer Satisfaction.

3.0. MTH sarl AREAS OF SPECIALISATION

Mineral Processing Equipment	Liquid Solid Separation	Electric
Grinding	Liquid Solid Separation	Motors
Crushers	Mixers	Transformers, switchgears
Screens	Reactors	Generators
Storage Tanks	Size Reduction /Equipment	tools
Drying Equipment	Smelter/Furnaces	Conductors
Process Control Instruments	Wet Classification	Converters/Inverters
Mechanicals	Processing Plants	Material Handling
Compressors	DMS/HMS	Conveyors
Gear Box	Crush and Screen	Cranes and Forklifts
Pumps	Milling/Water	Feeders
Winches, Ropes and chains	Coal Gold Sand	Shunting Locomotives
Valves	Material Handling	Ore Dealing/transporting
Mechanical Construction	Training and development	
Civil	Telecommunication	Computer accessories

All Civil works	- Base Station equipment - Transmission equipment - Spares supplying	Hardware and Software
Communication Facilities		Accessories
Production	Industrial Chemicals	Analytical Laboratory
Winders	Sulphuric Acid	Laboratory Chemicals
Consultancy		
Equipments upgrading		
Maintenance Shutdown, Planning and scheduling in zone maintenance		
Mining exploration and survey		
Data Base Management		
Long, medium and short term mine planning		
Root causes analysis		
Quality control and expertise		
Budget forecast		
Metal accounting		

4.0 MTH sarl

4.1 MTH Sarl ENGINEERING AND CONSTRUCTION

Involved in engineering and Construction services. A specialist in commissioning, readiness, Shutdowns and Turnaround Management, Maintenance, Upgrades. The core areas of specialty include the following:

- Heavy equipments maintenance and reliability,
- Mechanical works

- Electrical installation and maintainability,
- Welding and fabrication
- Environment management,
- Transport and logistics
- Fuel supply
- Civil Engineering
- Safety and health management
- Cleaning and Camp services
- Manpower supply and accountability
- Tyre management
- Weighbridge operations and maintainability
- Renting Mining Equipments: Dozer, grader, dump truck, ADT, tipper trucks, loaders, excavator, TLB, Bobcat, water truck, fuel truck, Busses
- Computerized management system
- Infrastructure construction and maintenance
- Project Management
- Ore accounting
- Dust suppression
- Supply Pumps for Petrochemical, Mining, Water
- Mechanical and automatic Valves as per requirement
- Crushers, Screens, Conveyors etc.
- Engineering Solutions
- Exploration and Feasibility Studies, Design and Construction Supervision
- Supply and Erection of Water Tanks
- Supply and Installation of Prepaid Water Meters
- Water and Sewerage pumps
- Land survey

4.2. MTH SARL CONSULTANCY AND SUPPLY

Operation

- Advisory and Trade Services
- Corporate Finance
- Metal accounting
- Solvent extraction and concentrate Ponds clean up
- assets improvement
- Maintenance attainment
- Plants shutdown
- Structuring of Trade Transactions
- Business Plans Development.
- Commodity Trading
- Project Management
- Aggregates supply and civil work consumables
- Metallurgical Troubleshooting
- Plant Operations consumables
- Mining operations consumables
- Fixed Plant Maintenance consumables and spare parts
- Mobile Plant Maintenance Consumables and spare parts
- Stationary consumables

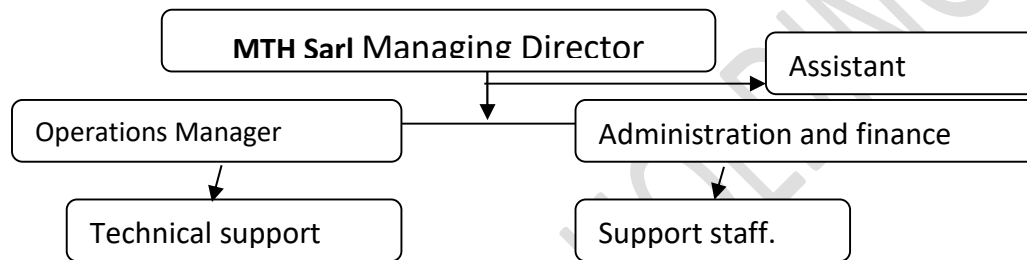

Health, Safety & Environment (HSE)

- ✓ HSE policy: Golden Rules and Fatal hazard protocol
- ✓ Safety Objectives
- ✓ PPE compliance
- ✓ Incident reporting system
- ✓ Risk assessment procedures
- ✓ Employee safety training

7.0. SAFETY AND HEATH MANAGEMENT

We do have a legal and moral responsibility to safeguard all employees against any potential hazardous working environment or activity.

It is our goal to fulfil the legal responsibility to the workforce in respect of health and safety at work, so that the maximum level of individual and general productivity is achieved. We have zero accident rating as at present.

We ensure the following procedures and systems are in place when executing work on sites in order to achieve a zero-accident rating:

- ✓ Appointments for responsible and subordinate persons
- ✓ Hazard identification and risk assessments
- ✓ Appointment of safety representatives and first aid attendants
- ✓ Medical examinations as per section “” of workers compensation act
- ✓ Investigation, recording and reporting of incidents
- ✓ Daily safety talk
- ✓ Monthly safety meetings
